

## Dr. Garland Landrith

is a psychologist from Kansas who specializes in energy work, including such techniques as:

- Self-hypnosis/meditation
- EFT/Tapping
- Nutrition.

Dr. Landrith's Quantum Field research has been cited by the movie *"What the Bleep Do We Know?"* as well as by numerous authors, including Deepak Chopra, MD; Neale Donald Walsh; Dr. Bloomfield and Dr. Dean Radin.

EFT (Emotional Freedom Technique), or what is termed "acupressure for emotion," is so effective that it can literally transform one's life from one of 'fear from love' to one of 'embracing love'. In Dr. Landrith's practice, he has seen lifelong fears and traumas that have resisted years of therapy and energy work, completely healed within a few weeks of learning this technique.

By tapping on these points what you do is clear out all the blocks, so that the energy flows in such a way that we feel like we are **'High on Life'** or what is termed "being in a zone." We now can feel great and to be at our best, no matter what the situation! You can use this technique before or a job interview or giving a presentation or just to feel great!

**Dr. Landrith gives his clients tools so that they can learn to heal themselves!** Dr. Landrith will share his cutting-edge techniques so you can be the person you were created to be!
